Objective

Computer Science graduate with a strong foundation in Java, Python, and JavaScript, and working knowledge of React, Node.js, and database design gained through personal projects. Eager to apply my problem-solving skills and technical foundation to an entry-level Software Engineer role, and quick to learn new tools and technologies.

PROJECTS

SupportNook: Real-Time Collaboration Platform | [Live Demo](#) | [GitHub](#)

- Developed a real-time collaborative workspace for live chat, shared coding, and whiteboard interaction, ensuring seamless synchronization using Socket.IO.
- Implemented persistent room storage with MongoDB to retain chat, code, and collaboration data across sessions.
- Dockerized the complete application with Docker Compose, enabling streamlined deployment and consistent execution across different environments.

DocTalk AI: Real-Time AI Medical Voice Agent | [Live Demo](#) | [GitHub](#)

- Built a voice-based AI assistant that allows users to describe symptoms naturally and receive AI-generated responses in real time.
- Integrated AssemblyAI for speech-to-text and Clerk with Neon PostgreSQL for user authentication and secure storage of user and medical history data.
- Developed a responsive SaaS-style interface using Next.js and Tailwind CSS, providing a smooth experience across desktop and mobile devices.

Bolt.New Clone: AI-Powered React Code Generator | [Live Demo](#) | [GitHub](#)

- Built an AI-powered development tool that converts natural-language prompts into functional React applications, generating code dynamically from user requirements.
- Developed an integrated interface that displays the generated file structure alongside a live application preview, enabling users to view code and results simultaneously.

EXPERIENCE

Insiza Technology (*Client: WNS Global Services*)

Aug 2025 – Present

Desktop support Engineer L1

Mumbai

- Resolved 15-20 technical support tickets daily while meeting SLA targets.
- Provided priority technical support to senior management and VIP users, ensuring minimal downtime.
- Provided on-site IT support during board meetings and ensured smooth functioning of meeting room systems, projectors, conferencing tools, and audio/video setups.
- Joined client bridge calls and coordinated with internal teams for process application issue resolution.

EDUCATION

University of Mumbai

Bachelor of Science in Computer Science | **CGPA: 7.8/10**

April 2025

Mumbai, India

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks, Object-Oriented Programming

SKILLS

- **Languages:** JavaScript, Java, Python
- **Web Technologies:** React.js, Node.js, Express.js
- **Databases & Tools:** PostgreSQL, MongoDB, Docker, Git, Vercel, Render
